Travel Program Fee Policy:

(Est. 1/2022 Board of Directors)

Team ECCO is excited to offer outreach programs that serve surrounding educational facilities

Due to the nature of travel with live animals /specimen transport, a “travel / transport fee” is in place as follows:

Sea Link program requests * within 20 miles of the Aquarium are \$30

* 21- 35 miles of the Aquarium are \$45

* 36 - 50 miles of the Aquarium are \$65

Any requests past a 50-mile radius of the Aquarium will be quoted and / or approved on an individual basis.

Travel fees are calculated at time of contract and based on milage to site from Aquarium.

This is a one-time travel fee added to total program cost for any program(s) scheduled at the same site on the same day. Multi site / multi day programs will incur travel fees for each day / site requested.

NOTE: Sea Link involves the gathering of specimens, materials, and potential use of live animals. This is done under strict guidelines and methods and may be dependent upon distance and weather. All specimen interaction is dependent upon health regulations, participant behavior, weather, and distance to site. All decisions regarding the use of live specimens are the judgement of Team ECCO and its agents.

NOTE: transportation fees subject to change based on fuel costs.

Brenda j Ramer, M. Ed.

Founder & Executive Director

Team ECCO, Inc. est. 2001 “the sea in WNC””

**Educational programs & exhibits supported by: the NC Science Museum Grant program
